

*Get together with a few people over coffee or a meal - maybe invite them to your place?! AND - Invite God to lead the discussion as you get to know each other and discover how He is moving. No person in the group is necessarily "leading" the discussion, simply make sure it doesn't stay on one person for too long! The goal is for you to connect to one another and for everyone to have a real next step they can take to live sent.*
